## Reference of Warwick Pascoe

Earlier this year Warwick came into our school to give presentations to two of our year 9 health classes. The subject we were doing was the nutrition and how it can affect your development. The stunning visual effects and great use of props kept the students captivated for the whole hour. There was a great mixture of academic information as well as basic life skills being taught, at a level the students can understand.

Warwick and his administration team were a pleasure to deal with and were happy to adapt and be flexible in order to fit with the curriculum we were teaching. I have no hesitation about recommending Warwick to come and speak at your school whether it be to year 9's or year 13's.
