#### **TO WHOM IT MAY CONCERN**

We had Warrick Pascoe present his "Masterpiece" to a group of young mothers and pregnant teens.

His presentation was absolutely professional, interesting and informative. He held his audience with his lovely relaxed manner and imparted important messages, like understanding the bond between the unborn child through to later years .

He emphasised in a way our students understood the value and care of each individual child.

I would without hesitation recommend Warrick as a presenter to secondary school students.
