Dear Warwick

Re: Celebration of the Miracle of Life

I would like to thank you sincerely for your excellent presentation to our senior students, and our year 10 students on 28 March.

Your presentation was outstanding and contained fascinating and thought-provoking information for the students. This tied in beautifully with the Health Curriculum. Your very knowledgeable dialogue, video footage and life sized models made this presentation very real for the students. They were fascinated and engaged in your presentation.

I would recommend you to other Colleges, and in particular, senior students. More able year 10 students would also benefit from this presentation.

I would be very interested in your returning to our College again some time in the future. Thank you so much again.

Yours sincerely

Robyn Keeling
Dean of Pacific Island students
HOD Information Technology
HOD Media Studies
