Dear Warwick

I just wanted to say thank you for presenting the "Making of a Masterpiece" to my year 11 Health students. The students all thought the presentation was excellent and relevant. One specific message that they all took away was how unique they all are. It has been extremely useful to reflect back on your presentation when we are studying particular topics in Health. I would recommend this presentation for all Senior Health and Science classes as it can be easily adapted to the different modules that we teach.

Many thanks for taking the time to come and speak to us this year.

Kind regards

Brenda McKenzie
